Rosenfeld Injury Lawyers Launches Website for Parents of Children With Cerebral Palsy

URL: <http://www.cerebralpalsylawyersfaq.com/>

[tweet the above site!..](#) [ShareThis](#)

Headed by Jonathan Rosenfeld, [Rosenfeld Injury Lawyers](#) is a team of seasoned legal professionals who represent children in medical malpractice cases involving the negligence of physicians and hospitals. It is their mission to represent the very young and protect them against those who injure, neglect, or abuse them.

treatment, a child's capabilities can be improved.

"We are looking to reach parents of children with cerebral palsy and other birth injuries who need a lawyer they can trust to represent their family," said Jonathan Rosenfeld, an Illinois lawyer with nationwide practice. "Those with birth injuries have the same rights as everyone else, and they deserve to be treated with compassion and respect."

Finding the right lawyer to take on a child's case whose life was altered because of an injury sustained in utero and during the birthing process can change a child's life. Getting the most compensation for an injury can mean having the best treatment options available.

"We hope this site will be a place that parents whose children have cerebral palsy can look to for information and resources. It will be a one-stop shop for parents who are looking to help their children who have cerebral palsy," Rosenfeld said.

Rosenfeld Injury Lawyers recently launched [Cerebral Palsy Lawyers FAQ](#), a new website devoted to informing parents of children with cerebral palsy of their medical and legal rights following a diagnosis.

When parents first realize their child is going to face a life full of obstacles, it can be very confusing and upsetting. When mixed with the realization that their child's life was forever altered due to a medical error, parents need somewhere to turn to find facts and provide their child with the compensation they deserve.

Cerebral Palsy Lawyers FAQ provides access to accurate, user-friendly, and relevant information with sections of the site devoted to [cerebral palsy resources](#) and birth injury news.

Cerebral palsy is a disorder that is caused by abnormalities or injuries of the brain. It affects about 2 to 3 children in 1,000. It can sometimes be attributed to poor physician practices during labor and delivery including loss of oxygen or brain trauma. There is no cure for the disorder, but with the right

Link Building Strategies
for Quality Content

[Is Your Site a Good Fit For Announcement on URLwire?](#)

Since 1994 [URLwire](#) has helped quality web content gain attention, links, and publicity. URLwire was originally established as a private service for librarians to inform them of meritorious Web content. URLwire now has thousands of editors, writers, and

reporters who subscribe from all over the world. URLwire is not a mass service, and is not automated. The private email version is sent by founder Eric Ward, one at a time, to people who have requested it. URLwire also has millions of pageviews via the URLwire web site, and is published in several other [formats](#).

URLwire is produced by [EricWard.com](#) - Etiologic Content Linking Strategies
Experienced, practical, and ethical link building services, strategy, and training.
